THE ALSTON

designed by Brian Patrick Flynn

Brian Patrick Flynn, known for his eclectic mix of design styles, is intrigued most when combining looks to create something new and completely original. The Alston collection is characteristic of his tailored look, love of bold contrast, and combination of unique elements. Alston takes a classic drum shape and adds a distinctive oversized rectangular metal chain, with varying link sizes, to make a sophisticated statement in any space.

THE ELLIOT

designed by Libby Langdon

ELL-B3007-PN linear chandelier

LIBBY LANGDON

"My inspiration for the Elliot was to create a sleek and almost masculine collection featuring chunky glass rods on a polished nickel frame. The filtered light bounces between the glass rods and gives off a beautiful glow. Architectural in nature, the Elliot is my modern take on a crystal-style chandelier"

THE ARIES

Right at home in any space and any lifestyle, the Aries sophisticated shape will define a design scheme with its high polished nickel finish. This architectural series defies the traditional chandelier with light bulbs facing two directions. The beauty is from underneath as the mix of the vertical lines inconjunction with the round ring create a harmonious juxtaposition.

THE HULTON

designed by Brian Patrick Flynn

Brian is one designer who understands the important role lighting plays in bringing a room to life. The Hulton collection is inspired by a classic drum pendant's shape and scale with a unique geometric twist. The outer drum accentuates the matte black metal frame's bold graphic lines, making this a striking and visually exciting piece that matches a range of home décors.

LED BULBS

If brighter light is preferred on a Crystorama fixture, consider an LED bulb with a lighter lumen output.

ICON DESCRIPTION

 **ADA COMPLIANT**
Indicates the fixture adheres to the standards and guidelines listed by the Americans with Disabilities Act.

 **WET RATED**
Represents a fixture is suitable for wet locations.

 **DAMP RATED**
Identifies the fixture is suitable for damp locations.

 **MAJESTIC CUT CRYSTAL**
The crystal is cut by hand in two stages, on an iron wheel and then on a sandstone wheel. Each crystal is then polished on a wooden wheel with marble dust, creating the artisans mark of authenticity.
