HINKLEY, INC. | 2020

FOR THE FIRST TIME IN ALMOST 100 YEARS OF BRINGING YOU THE BEST IN LIGHTING, HINKLEY FANS ARE HERE.
AND THEY ARE GUARANTEED TO KEEP YOU COOL.

LET'S GO FOR A SPIN >

"Creativity is something we embrace every day. We want Hinkley to make people's lives happier."

RICK WIEDEMER
50 YEARS OF VISION, PASSION
AND LEADERSHIP AT HINKLEY
1969-2019

We're proud to be a 4th generation family company, and love what we do. We've been around for nearly 100 years, creating thoughtful designs with the same quality and style we put in our own homes.

Creativity is at our core, and one of the biggest lessons our dad taught us was to keep looking forward. In reflection of that, Hinkley has continued to evolve, most recently with the addition of ceiling fans. And because our family's commitment is to make your life happier, we can't wait to share our newest designs with you throughout these pages and at Hinkley.com.

Cheers,
Jess & Eric Wiedemer

ICONS + FINISH REFERENCES

Throughout this catalog we have utilized a variety of important icons and finish codes to assist you with your selections. Below is a key describing each of these icons in detail as well as a list of our product finishes with abbreviated codes for easy reference.

ICON DESCRIPTIONS

DC MOTOR
Fan comes equipped with a DC motor which uses up to 70% less energy than an AC motor and runs cooler and quieter for a longer life.

ETL LISTED
Fan has been tested by Intertek and found in compliance with accepted national safety standards.

LED
Fan supplied with fully integrated LEDs and drivers or specifically matched LED lamps based on performance and application.

TITLE 24
Meets California Energy Commission Title regulations.

UL LISTED
Fan has been tested by Underwriters Laboratories and found in compliance with accepted national safety standards.

WET RATED
Suitable for use in wet (interior direct splash and outdoor direct rain or sprinkler) locations as defined by NEC and CEC. Meets United States UL Underwriters Laboratories & CSA Canadian Standards Association Product Safety Standards.

WiFi
Fan is WiFi compatible with the purchase of optional controls.

CEILING CANOPY

MOUNTING HARDWARE

FAN BLADES

BALANCE KIT

Put this somewhere safe! It's the first stop on the troubleshooting train.

CONNECT TO THE

BALL MOISTURE CAP

Keeps electrical components sealed in outdoor environments.

LIGHT KIT COVER

+

LIGHT KIT

So many options for adding illumination.

MAKE IT WORK WITH A

WALL CONTROL + RECEIVER

Operate speed, lighting and direction of blades. If you're looking for wi-fi capabilities to control via your smart phone or integrated home device, we have it. Check out optional controls on each product page.

FAN HOUSING + MOTOR

It's the important part that powers a fan. You will see rubber pads that protect the motor during shipping. Remove them before installation, but be sure to save the screws!

BLADE ARMS

NOTE: FAN PARTS MAY LOOK SLIGHTLY DIFFERENT BASED ON THE EXACT MODEL OF YOUR FAN.

MODEL SHOWN: VAIL 902152FMB-LWD I PAGE 21

SELECTING A CEILING FAN

THE VERY FIRST THING TO CONSIDER IS...

1 Location

Inside? Outside? Under cover? Wet rated fans are a must in any area exposed to the elements. Spaces like covered porches and sunrooms are best served by outdoor fans when condensation and high humidity are factors. Wet rated fans can be used inside as well, but indoor-only fans can't play outside.

2 Style

Narrow your search by finding fans that complement your home's décor. Go for modern if a streamlined look is more your style or check out traditional fans if they best suit your space. From island-inspired to mid-century, Hinkley has a fan (with plenty of finish and blade options) to fit your vibe.

3 Size

Choosing the right size fan is important. A fan that is too large can overpower a room, and too small will not circulate enough air. These guidelines will help:

SQUARE FOOTAGE OF ROOM + BLADE SWEEP = PERFECT FAN RATIO

36-44" BLADE SWEEP	52-56" BLADE SWEEP	60-72" BLADE SWEEP
< 100 SQUARE FEET	100-150 SQUARE FEET	> 150 SQUARE FEET

4 Airflow

UNDERSTANDING CFM: CONVERTING ENERGY TO AIRFLOW

CFM is the magic acronym needed to achieve the optimum airflow output of a fan. It also calculates the operating cost and energy expenditure of your fan. So what actually is CFM?

THE VELOCITY OF AIRFLOW, MEASURED IN CUBIC FEET PER MINUTE

IF YOU WANT GREAT AIRFLOW, LOOK FOR A FAN WITH A CFM RATING OF 5,000 OR HIGHER.

MORE IS BETTER WHEN YOU'RE SPEAKING CEILING FAN CFM

5 Light

BECAUSE SOMETIMES YOU JUST NEED OVERHEAD LIGHTING. LED LIGHT KITS ARE EITHER INCLUDED OR OFFERED AS OPTIONAL ACCESSORIES FOR ALL FANS.

6 Control

Fans now have far more options than pull chains to operate! Look for included or optional accessories to make your fan WiFi compatible for smart phone control and integrate with home devices like Alexa and Google Assistant for voice activation.

7 Motor

THERE ARE 2 TYPES OF FAN MOTORS:

AC Also known as a spinner motor fan.

DC Use up to 70% less energy than an AC motor fan. They run cooler and quieter for longer life!

8 Customize

Fans are cool because you can customize both aesthetic and operational elements. If you are the kind of person who rearranges your furniture and swaps out throw pillows seasonally, look for fans with reversible blades. If creating a connected home is at the top of your to-do list, check out the many options for controls.
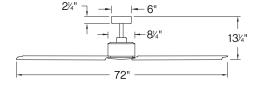

72" INDY™

The raw, edgy style of Indy is the perfect complement for all modern industrial design-inspired rooms. Available in Brushed Nickel, Matte White or Metallic Matte Bronze finish options, Indy features sleek composite blades. Indy is so versatile; it can be used for both indoor and outdoor spaces. Blades are included with every fan.

52" OASIS™

Part of the Regency Series, Oasis offers a simple yet classic all-you-need design. Available in Appliance White, Brushed Nickel, Graphite, Matte Black or Metallic Matte Bronze finish options, Oasis is so versatile; it can be used for both indoor and outdoor spaces. Blades are included with every fan.

DESIGN NOTE

Oasis housing and components are constructed of composite materials to offer maximum durability in harsh climates.

INDEX

We want you to enjoy
your experience with Hinkley.

There is nothing complicated about it: we want to deliver a great product and treat you the way we'd like to be treated. So whether you are flipping through our catalog, surfing our site, getting inspired through social media, chatting with a member of our team or checking out our products in a retail shop—we want it to be time well-spent. Here's all you need to know:

CATALOG COLLECTIONS
Hinkley catalogs feature our current and complete product line along with important product specs and detailed photography. A must for the print-loving researcher who likes to tab their favorites. Stop by your local showroom for your own copy.

HINKLEY.COM
Dive in! Our easy-to-use site makes your product research process a snap, with the added benefit of tips, trends, installation guidelines and a quick connection to our retail partners.

SOCIAL CLIMBERS
We don't mean to brag, but we are connected.

REAL PEOPLE
Want to chat? Contact us at service@hinkley.com or 1.800.HINKLEY.

Hinkley stands behind the quality of our fixtures with product warranties that are among the strongest in the industry. For details of warranty coverage on specific products, please refer to hinkley.com or consult a qualified Hinkley retail distributor.

Several Hinkley products are protected under U.S. Patent and foreign patent, or patent pending. For current information regarding Hinkley's patent portfolio, please visit hinkley.com.
