TABLE of CONTENTS

IT'S TIME FOR A
BEAUTIFUL
SWITCH

The adorne Collection makes life simply beautiful.

Elevate your space with the exceptional style and advanced functionality of our designer switches and outlets, then pair them with an awe-inspiring wall plate, available in an array of stunning colors, real materials and cast metals. From switches you wave on, to outlets that pop, add a little high-tech wow factor to your home, and discover how adorne makes it a delight to hit the lights and more.
And with the Under-Cabinet Lighting and Power System, adorne also offers an easy recipe for a state-of-the-art, clutter-free kitchen. Keep every modern convenience close at hand, but ingeniously tucked away, with this flexible solution for adding workspace lighting, hidden power outlets, USB charging, plug-and-play music and more.

Finally, adorne also delivers Wi-Fi Ready lighting solutions and more that you control with the tap of an app, or even a voice command. Because we are about making life beautifully simple, too.

Find your perfect finishing touch with the adorne Collection.

TURN ON YOUR STYLE

The adorne designer switches and outlets include solutions to fit any need and finishes to match every taste.

Beginning with the switches, dimmers and outlets themselves, each is available in white, magnesium or graphite to suit your style. Pair each device with a stunning, screwless wall plate, selecting from an extensive range that includes bold hues, natural woods, on-trend metals and more, to perfectly complement any décor or hardware. Transform your walls from blah to breathtaking and let your personality shine through.

And how about the kitchen? Striking the right balance between practicality and style, adorne's under-cabinet solutions keep counters uncluttered, and preserve any beautiful backsplashes, so you can always see your kitchen in the most flattering light.

The adorne Collection combines exceptional style and innovative functionality to deliver accessible, lexible and smart solutions that will inspire your creativity while elevating your spaces.

2015 LIGHTING for tomorrow Award Winner

Tru-Universal - 2015 Lighting for Tomorrow Winner!
Our Tru-Universal technology enables a dimmer to control all load types. Dimmers marked as Tru-Universal, such as the sofTap Dimmer below, automatically adapt to any load or combination of loads attached to them - Incandescent/Halogen, Magnetic Low Voltage, Electronic Low Voltage in Forward or Reverse Phase, CFL/LED bulbs, etc. They eliminate the flickering, early dropout, or "pop-on' deficiencies which can plague other non-adaptive dimmers.

The adorne Tru-Universal dimmer is the ultimate solution to dimming difficult loads. Simply pair it with any fixture and you're done!

Touch™

The Touch design features a stunning translucent face and operates just like a smartphone - simply touch your finger on the circle to turn lights on and off, or use the arrows on the right to dim them (Touch dimmer only).

The white Touch interface is created using a unique translucent material. In multi-gang installations, we recommend pairing white Touch switches and dimmers for optimal consistency.

SensaSwitch™ + SensaDimmer™

SensaSwitches include passive infrared (PIR) sensor technology, automatically turning lights on or off when you enter or leave a room. The design features an innovative micro-movement that allows you to also manually turn on lights with a soft touch of the finger. SensaSwitches are available in three models:

- Auto-ON/Auto-OFF: Automatically turns lights on when you enter a room and off when you leave. (Occupancy Sensor)
- Manual-ON/Auto-OFF: Allows you to turn lights on when you enter a room and automatically turns them off when you leave. (Vacancy Sensor)
- Manual-ON/Timed-OFF: Allows you to turn lights on when you enter a room and select a time for lights to turn off (options include 10, 20, 30, and 60 minutes). (Timer)

SensaSwitches are perfect for kitchens, bathrooms, garages, and pantries. The SensaDimmer turns lights on when you enter a room and off when you leave, but can be adjusted to become Manual-ON/Auto-OFF if desired. The chart to the right provides an overview of the sensor coverage area.

Major Motion 35' (10.6 m)

Minor Motion 20' (6 m)

7.5' (2.2 m)
15' (4.5 m)

SensaSwitch™ + SensaDimmer™
Coverage Area

The Occupancy Sensor, Vacancy Sensor, and SensaDimmer each have a maximum coverage range of 180 degrees and a coverage area of 600 sq. ft. The sensor must have a clear and unobstructed view of the coverage area. Objects blocking the sensor's lens may prevent detection thereby causing the light to turn off even though someone is in the area. Windows, glass doors, and other transparent barriers will obstruct the sensor's view and prevent detection.

Wave™

The Wave switch features innovative technology combined with sleek, contemporary design. Simply wave your hand in front of the switch to turn lights on and off.

With its touch-free motion, the Wave is ideal for countertop areas in kitchens and bathrooms. It has a preset sensor distance of approximately 4". However, this can be easily adjusted to sense movement from 1" to 6" in front of switch.

Comes standard with 8 foot cord with right angle plug.	Receptacles: 15A 120Vac USB charging ports: 2.4A, 5Vdc each			White Magnesium	AD3-R2UR-W AD3-R2UR-M

Illumination Accessories

You've never seen a night light that hides itself so cleverly, yet responds so elegantly to a simple touch. Or one that can be lifted from its home on your wall to double as a carry-around flashlight. When it comes to brilliant solutions, adorne really shines. All night lights include ambient light level sensors. Each features a range of settings, including: Always Off, Low, Medium, and High. If set to Low, Medium, or High, the night light's LED will only be visible when the ambient room is dark. To change the selected setting, simply push on the square in the upper right-hand corner of the night light.

NAME	DESCRIPTION	COMPLIANCE	PART NUMBER
Half-size Night Light	Features a soft, glowing LED light. Pair with a switch or outlet in a 1-Gang, 3-Module Plate for added flexibility. **Light levels include:** Always Off Low Medium High	c(ETL)us LISTED	AANLM14
Night Light	Features a soft, glowing LED light. **Light levels include:** Always Off Low Medium High	c(ETL)us LISTED	AANLM24
Portable Night Light/ Flashlight	Simply push on this innovative night light to remove it from the wall and use it as a flashlight. Device recharges while mounted in wall and operates for up to 10 hours during a power failure. Includes light level options listed above, as well as Flashlight Mode, which is activated only when device is removed from the wall.	c(ETL)us LISTED	AARNL2

In-wall Night Light function

Press on Night Light to remove from wall

Portable flashlight function

Accent Night Light

The Accent Night Light is a stunning addition to any adorne product and is compatible with any* 1- through 4-Gang wall plate. The device is invisible once installed, but can be activated by placing a finger under the wall plate. This will cause the light to cycle through several light level options, as depicted in the chart below.

NAME	COMPLIANCE	PART NUMBER
Accent Night Light, 1-Gang	c(ETL)us LISTED	AAAL1G4
Accent Night Light, 2-Gang	c(ETL)us LISTED	AAAL2G2
Accent Night Light, 3-Gang	c(ETL)us LISTED	AAAL3G2
Accent Night Light, 4-Gang	c(ETL)us LISTED	AAAL4G2

*Please note, the Accent Night Light will not work with the Pop-Out Outlet.

Light Level Settings

The Accent Night Light will cycle through these options, allowing you to select the setting you prefer. Auto-OFF indicates that the light will automatically turn on when the room is dark and off when the room is light.

DAYTIME	NIGHT TIME
Auto-OFF (1)	High
Always ON (2)	Medium
	Low
	Ultra-Low
	OFF (3)

1. Light turns off automatically when room is light.
2. Light remains on when room is light.
3. Light remains off when room is dark.

Locator Status Light: Find Us in the Dark

NAME	DESCRIPTION	COMPLIANCE	PART NUMBER
Locator Status Light	Add a stylish, small locator light to your Paddle, Whisper, or Push switch or dimmer and you'll never again have to slide your hand across the wall trying to find that switch. The locator light is a standard feature of all other switches and dimmers. It can be disabled if desired. Locator light is on when the load is off and off when the load is on.	c(ETL)us LISTED	AALSL6 AALSL277 (277 VAC)

BEFORE

AFTER

The adorne Frame System

The frame is the foundation upon which the adorne modular system is built. It is manufactured with high-strength galvanized metal and includes a ground wire.

Frames include plastic spacers. The spacers remain in place for devices with full size backbodies. They must be removed for devices with plus size backbodies, such as dimmers and GFCI outlets.

The frame completes the enclosure, providing a safe installation during the construction phase and allowing the wall plate to be installed at the end of the project.

Each frame includes a leaded ground that supports the full adorne system. Most switches, outlets, and wall plates (including cast metals) are automatically grounded to the frame, saving time and ensuring a safe and reliable ground path.

Legrand
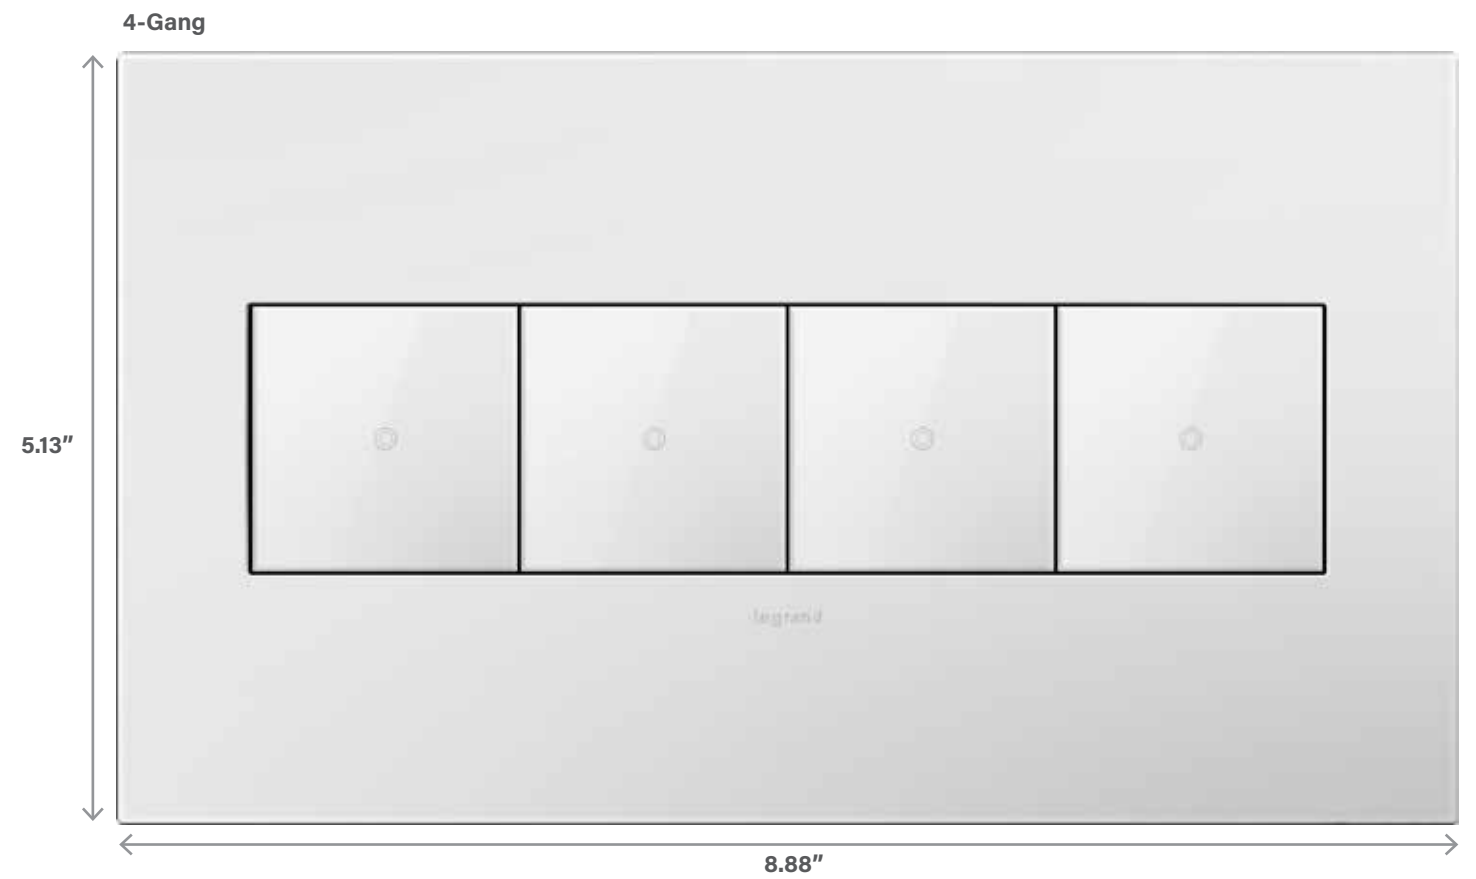

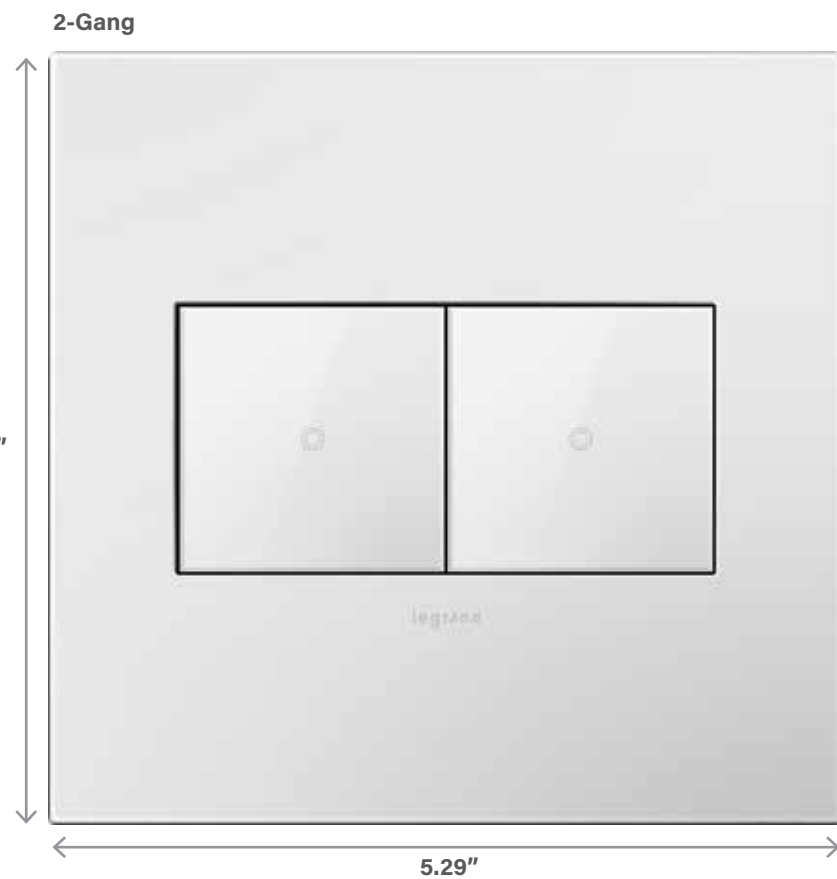

A FRESH IDEA
FOR COOK-
ING LIGHT

UNDER-CABINET LIGHTING
& POWER SYSTEM

A RECIPE FOR KITCHEN MAGIC.

The adorne Under-Cabinet Lighting and Power brings an array of modular components that swap out so easily, you'll want to reconfigure whenever the mood strikes. From speakers and smart phone docks to lighting and outlets, there's a world of possibilities to choose from with these high-tech, highly convenient building blocks.

Under-Cabinet Lighting and Power

USB Module:
A handy outlet to power today's devices.

Tamper-Resistant Outlet Module:
Convenient power snaps in where you need it.

LED Slimline Light: A low-profile, continuous lighting option.

Linear Lights: For a consistent, continuous light.

Tablet Cradle:
Puts apps and the internet where you need them.

Mobile Cradle:
Because recharging doesn't have to look sloppy.

Modular Tracks: The nerve center that tucks away out of sight. Available in four sizes and two colors.

LOOKING UP A view from below reveals how the adorne collection tucks neatly away, offering tons of convenience while hiding underneath your cabinets.

legrand

How to Specify the System

The adorne Under-Cabinet Lighting System is a fully customizable and modular solution for eliminating kitchen clutter. It is compatible with any kitchen layout, such as a galley, L-shaped, or U-shaped, as well as with any home wiring. In order to ensure you have specified the correct products for your system, we recommend you follow the steps outlined below.

1. Planning Your System Layout

First, determine where you want to install the system. Then measure your cabinets to determine the length of Modular Track required:

- Measure each cabinet length at back of cabinet.
- For installations with a corner, allow 3" on each side for Corner Connector.
- When totaling up the length of required Modular Track, be sure to include the length of the desired Control Box or Direct Wire Connector. For a 1-gang box, allow 5". For a 2-gang box, allow 5.25". For Direct Wire Connector, allow 6". For more detail on Control Box options, see page 53.
- If your selection of Modular Tracks does not match the exact length of your cabinets, you can use a Modular Track Extender to complete the track. This piece can be cut down to 6". Standard 12", 18", and 27" Modular Tracks cannot be shortened.

9" Modular Track

12" Modular Track
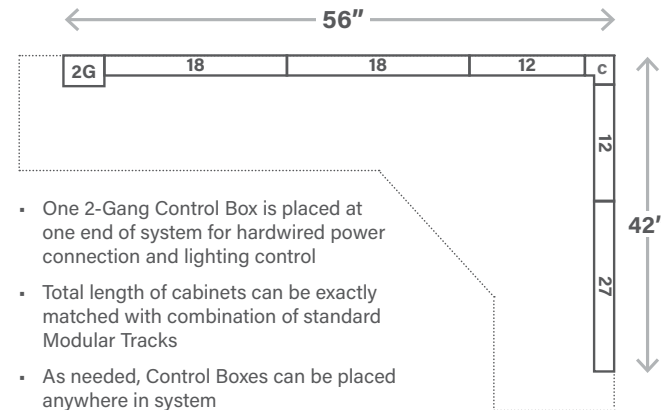

18" Modular Track

27" Modular Track

18" Modular Track Extender

Modular Track Corner Connector

Visit **www.adornemyhome.com** to watch planning and installation videos.

Sample Installation: Length of cabinets is equal to combined length of standard Modular Tracks

56"

- 1-Gang Control Boxes are placed at both ends of the system for hardwired power connection and lighting control
- Modular Track Extender is custom-cut to match exact length of cabinets

Sample Installation: Direct wire with system controls in a remote location

57"

| 27 | 27 | C |

27

36"

DWC

- Direct Wire Connector is placed at one end of system for hardwired power connection
- Light control located in nearby wallbox
- GFCI circuit breaker located in electrical panel

2. Selecting the Control Box and Power Options

Next, select the type of lighting and power connection you'd like to include. For a hardwired installation, there are five options to choose from which enable expanded lighting control options such as dimming:

- Control Box with Paddle Dimmer
- Control Box with Paddle Dimmer and GFCI protection
- Control Box, 1-Gang (No Devices)
- Control Box, 2-Gang (No Devices)
- Direct Wire Connector

For hardwired installations, there must be three separate circuits from the electrical panel:

- Receptacle Circuit: 20 Amps; GFCI-protected; Use #12 wire
- Lighting Circuit: 15 Amps; Use #12 or #14 wire
- Accessory Circuit: 15 Amps; Use #12 or #14 wire

Hardwired Control Boxes

1-Gang Control Box with Paddle Dimmer

2-Gang Control Box with Paddle Dimmer and 15A GFCI

Direct Wire Connector

Control Box, No Devices, 1-Gang*

Control Box, No Devices, 2-Gang*

Compatible with all adorne 2-module devices. The CFL/LED Paddle Dimmer (ADPD453LM2) is recommended for use with the adorne system.

3. Selecting the LED Lights

The adorne Under-Cabinet Lighting System is only compatible with adorne LED lights. Recommended placement for lights is every 18" along Modular Track.

You can select any combination of Linear lights to complete your system. In addition, if you are mounting a light under the cabinet and wish to move it further to the front of the counter, you can use the LED Light Extender. This enables you to increase the length of any light from the Modular Track from a standard 11" to up to 22". This is especially useful in corner installations.

4. Choosing Accessories to Complete the System

The final step is to select the accessories to perfectly complement your system. adorne offers a range of options, including USB charging ports, mobile and tablet cradles. Each of these accessories provides flexibility in that it can be added or removed at any time – simply swap it with an existing outlet or blank module to increase your system capabilities.

We're here to help!
We have a dedicated project services team on staff to help you plan your projects, including supplying a full takeoff with a wiring diagram based on your floor plans.

Give us a call at 315.468.8413 or email us your project info at adornemyproject@legrand.us.

Modular Tracks

The adorne system is a flexible and modular solution designed to eliminate kitchen clutter. Fully customizable, you can select from several types of modules and modify your system in minutes. Simply pop out an existing module and replace it with a new module at any time.

The Modular Tracks listed below simply plug together to create a full system custom-designed for any kitchen. They form the base of the system, housing all of the wiring that connects the modules.

Each system must include a Control Box or Direct Wire Connector that is hardwired to existing wiring or plugged into an outlet on the backsplash.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
12" Modular Track	cETLus LISTED / TR	Includes one Tamper-Resistant Outlet Module and one Blank Module. Can support up to two LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 6" on-center.	APMT12TM2 APMT12W2
18" Modular Track	cETLus LISTED / TR	Includes one Tamper-Resistant Outlet Module and one Blank Module. Can support up to two LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 9" on-center.	APMT18TM4 APMT18W4
27" Modular Track	cETLus LISTED / TR	Includes two Tamper-Resistant Outlet Modules and one Blank Module. Can support up to three LED lights. Provides 120V power via 15A outlet modules and 20A pass-through. Module openings are 9" on-center.	APMT27TM2 APMT27W2
18" Modular Track Extender	cETLus LISTED	Enables a perfect fit for any kitchen. Simply cut to length (minimum of 6") and attach to end of Modular Track. Does not include any module openings.	APME18TM2 APME18W2
Modular Track Corner Connector	cETLus LISTED	Use with installations that include a right-angle corner to connect two Modular Tracks. Allow 3" on each side for installations with Corner Connectors.	APCCTM4 APCCW4
Short Modular Track	cETLus LISTED / TR	Includes one Tamper-Resistant Outlet Module. Intended for use on short cabinet sections. 10" in length but can be cut to 8". Enables direct wire connection to wiring behind the wall. Cannot be combined with any other track section.	APST9TM1 APST9W1
Pro Kit	cULus LISTED	Includes the adorne control box with the paddle dimmer, 18" Track, 12" Track, an additional tamper-resistant outlet, and a tablet cradle.	APMTPROTM1

Control Boxes

Every Under-Cabinet Lighting System must include one of the below Control Boxes or Direct Wire Connector. These boxes connect to existing in-wall wiring or plug into an outlet on the backsplash to provide system power.
Control Boxes include system end caps, ensuring a clean finish on the left and right edges of the installed system.

Hardwired Installations that include USB modules require three circuits.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
Control Box with Paddle Dimmer	450W / cETLus LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5" onto system length. Includes adorne 450W CFL/LED Paddle Dimmer (ADPD453LM2). GFCI protection must be provided at the electrical panel	APCB1TM4 APCB1W4
Control Box with Paddle Dimmer and 15A GFCI	450W 15A / cETLus LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5.25" onto system length. Includes adorne 450W CFL/LED Paddle Dimmer (ADPD453LM2) and 15A Tamper-Resistant GFCI Outlet (AGFTR152M4).	APCB6TM2 APCB6W2
Control Box, No Devices, 1-Gang	cETLus LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5" onto system length. Customize with your preference of adorne dimmers, switches, or outlets.	APCB4TM1 APCB4W1
Control Box, No Devices, 2-Gang	cETLus LISTED	Connects to existing in-wall wiring. Fits onto end of Modular Track, adding 5.25" onto system length. Customize with your preference of adorne dimmers, switches, or outlets.	APCB5TM1 APCB5W1
Direct Wire Connector	cETLus LISTED	Enables direct wire feed of power from in-wall wiring, eliminating need for a Control Box. Connector is 6" in length.	APDWCTM1 APDWCW1

Lighting

adorne Linear LED Lights are designed for use with the adorne system only. They can be paired with the adorne SofTap Tru-Universal Dimmer (ADTP703TUW4) to enable dimming.

Lights easily plug into a connection port on any system module. Optimal positioning is one light for every 18" of Modular Track. Lights can be added or removed as needed.

LED Linear Light + Accessories (Comes in Titanium only)

Power Cable Extender 36"		Perfect for extending cables and hiding cables out of sight for a clean, finished look. Use the Power cable extender to extend the length of cables, allowing you to hide drivers in or above cabinets.	ALSLPC36W4 ALSLPC36TM4

Modules and Accessories

adorne system modules are designed to fit in any module opening, and can be easily added or removed by using the included module tool. Simply fit the tool into either end of the module and pop it out of the track.

Cradles do not occupy a module opening. Instead, they save space by resting on the back edge of the track.

NAME	COMPLIANCE	SPECIFICATIONS	PART NUMBER
15A Outlet Module	15A, 120V TR cETLus LISTED	Provides two power outlets by snapping into any module opening. Tamper-resistant outlet is designed with a patented shutter system. Included with short, 12", 18", and 27" Modular Tracks.	APTR15TM4 APTR15W4
USB Outlet Module	3.1A, 5V cETLus LISTED	Provides two USB charging ports for devices such as mobile phones and tablets by snapping into any module opening. Charging cable not included.	APUSB3TM4 APUSB3W4

Tablet Cradle		Attaches anywhere along track to hold a tablet. Perfect for use with USB Outlet Module while charging devices.	AATCM4 AATCW4

The adorne system is optimized to provide a premium under-cabinet lighting solution by utilizing the latest innovations in lighting research and LED technologies.

System specifications:

- OSRAM OSLON® Color Champ LED
- Nominal 3000K Correlated Color Temperature (CCT) warm light output
- Linear Lights have a Color Rendering Index (CRI) of 95 Slimline Lights have a Color Rendering Index (CRI) of 93
- Excellent range of color differentiation and rendering of the important red color (think red meat and apples) and skin tones
- A bright lumen light output provides optimized lighting for the under-cabinet environment
- Efficient driver design integrated in each fixture results in:
  - Reliable and smooth dimming
  - ENERGY STAR certification
  - Rated for 40,000 hours of high performance
- LED quality control uses a "fine bin system" based on a three-step MacAdams ellipse to ensure color consistency

ANSI Chromaticy Color Bin for 3000K

Legrand adorne LED Fixture Chromaticy Color Bin for 3000K

adorne individual LEDs are specifically selected to ensure fixture output CCT uniformity within a range of less than 100. This tight manufacturing assurance process ensures that variations inherent in the LED chip manufacturing process do not compromise reliable light quality.

APP-BASED
LIGHTING SYSTEM

APP-BASED LIGHTING CONTROL

ADD STYLE AND FUNCTIONALITY - CONTROL YOUR LIGHTS WITH YOUR VOICE OR SMARTPHONE

Your home network

The Hub

Wi-Fi ready switches

Legrand Lighting Control app

"Ok Google, dim the dining room lights"

Lamp module

"Alexa, turn on the kitchen lights"

HOW IT WORKS

1. Replace any standard light switch with a Wi-Fi ready switch or dimmer.

2. Plug the Hub into your home network.

3. Download the free Legrand Lighting Control app.

4. Easily set up your custom lighting settings.

5. Enjoy voice control by integrating with Amazon Alexa or the Google Assistant

WORKS WITH amazon alexa

works with the Google Assistant

Download on the App Store

ANDROID APP ON Google play

Wi-Fi READY

1. ADD SECURITY

Wherever you are, your home can look like you never left. Set up timed lighting sequences for when you're away.

2. REST EASY IN VACATION MODE

Vacation mode automatically remembers your last week of lighting activity. Set it for your house to replay on its own while you're on vacation.

SAY GOODBYE TO PLUG-IN TIMERS!

3. SAVE ENERGY

Ever wonder if all the lights are off for the night? Use the app to ensure the electricity goes to bed when you do.

4. SET YOUR RULES

Imagine setting your lights to wake up in the morning and greet you at home after a day away. You determine your rules, easily set it up in the app, and just like that your life is a little brighter. With countless options, you can set your lights to your liking while you're home or away. The app is free in the App Store.

GETTING STARTED IS EASY!

The Wi-Fi Ready Starter Kit (KTWIFI1) has everything you need to add app-based lighting control to your home.

YOU NEED:

Lighting Control App + The Hub + Wi-Fi Ready Switches & Dimmers

The App

The right lighting doesn't just transform a room, it changes the way you live in it.
The Lighting Control app delivers simple, Wi-Fi control of compatible Legrand dimmers, switches, and other devices allowing you to adjust your lighting with effortless precision.
Free download in the app store.

Download on the App Store

Google play

Wi-Fi Ready Switches, Dimmers, & Outlets

The adorne app-based lighting system provides unrivaled convenience, security, and energy-savings for both remodel projects and new construction. The ability to set scenes allows you to create the perfect lighting environment in multiple rooms or the entire house, all at the touch of a single button.

| NAME	COLOR	SPECIFICATIONS	PART NUMBER
The Hub™	Black	The adorne hub allows you to program and select home lighting scenes from your smart phone or tablet. In addition, it allows you to schedule lighting events based on time-of-day, such as turning on the exterior lights at sunset. - Use of the Hub enables whole house lighting control on iOS / android devices - Controls up to 100 devices - Creates and manages up to 100 scenes + 100 events * A repeater is needed with all app-based systems. See PN MRR2-G on page 67	LC7001
Tru-Universal Plug-In Lamp Adapter	White	Allows remote control of table or floor lamps up to 300W when used with the adorne Wi-Fi Lighting System. Simply plug the module into any grounded, 120V outlet and then plug the lamp into the module.	LC2150
RS232 to RF Interface	Black	Enables integration of a third party control system with the adorne Whole-House Lighting System. Features a two-wire interface from other control systems and two operating modes (maintained or momentary type inputs). Includes power supply.	MR232-G
Repeater & Away Emulator	Black	Provides extra security when you're on vacation. Records the normal usage of lights throughout a 24-hour period and then plays them back when you're not at home. Also expands the range of the wireless system from 100' to 300'. A repeater is needed with all app-based systems.	MRR2-G
