CREATIVE **LED** INNOVATIONS

VONN

THE
Art
OF
LIGHTING

With a unique focus on LED technology,
VONN presents luxury LED lighting solutions that
go beyond creative innovation and quality.

INTRODUCTIONS

The emergence of LED technology seems to have taken the lighting industry by storm.

Homes, business firms and governments are quickly switching and adopting LED lighting as the solution to their global illumination problems and dramatically abandoning the traditional and conventional lighting systems for the well-known benefits of LED lighting.

Vonn offers exceptional LED lighting creations, representing a fusion between innovative solutions & aesthetic vision

OUR STORY

Few will argue with the benefits of LED, but few also recognize just how widely LED is being accepted and adopted. Global new construction has nearly completed the transition with the trickle down into retrofit well on its way.

Lighting Brands have certainly taken notice and many are scrambling to produce whatever LED they can. However, while they attempt to replicate what VONN has already done, we will remain out in front, continuing to lead the industry with product and technology introductions, far beyond competitor's reach!

VONN TRANSFORMS
TRADITIONAL
LIGHTING SYSTEMS
INTO EXTRAORDINARY
SHOWPIECES.

By year 2022 the global adoption rate is expected to reach or exceed 60%.

A tipping point which effectively eliminates the relevance of other lighting sources. However, the US rules and regulations already taking effect in 2019 have further strengthened in 2020, enforcing the integration of LED in all residential and commercial construction forward.

CORE VALUES

DESIGN

Our globalized artisan design process delivers on-trend, elevated fixtures in countless styles.

QUALITY

Meticulous attention to detail and rigorous efficiency delivers maximum value, safety, and quality for our clients.

INNOVATION

Intensive investment into research & development to support our dedication to innovating the most technologically advanced and environmentally conscious LED designs.

MISSION STATEMENT

OUR MISSION

Leveraging our advanced infrastructure system, our mission is to excite our customers with the most groundbreaking LED Lighting on the market.

OUR VISION

Our vision is to transform conventional lighting by revolutionizing the way we light our world using groundbreaking LED lighting systems .

As a pioneer in LED lighting, we are passionate about harnessing the power of technology and the design of artisans to inspire a new era in lighting. Through intensive investment in innovation and tireless dedication to making sure our customers are satisfied, we are proud to offer a range of customizable indoor and outdoor lighting solutions for both commercial and residential use.

A Letter FROM US

VONN is positioned in an extremely positive upward momentum given our success in the market and the dominant online retail community. We do not simply create lighting, we turn traditional lighting fixtures into state-of-the-art LED lighting showpieces. By doing this, we revolutionize the way people light their residences and commercial spaces, offering a range of customizable designs including large-scale commercial project capability.

Join us on our journey to turn conventional light fixtures into extraordinary showpieces.

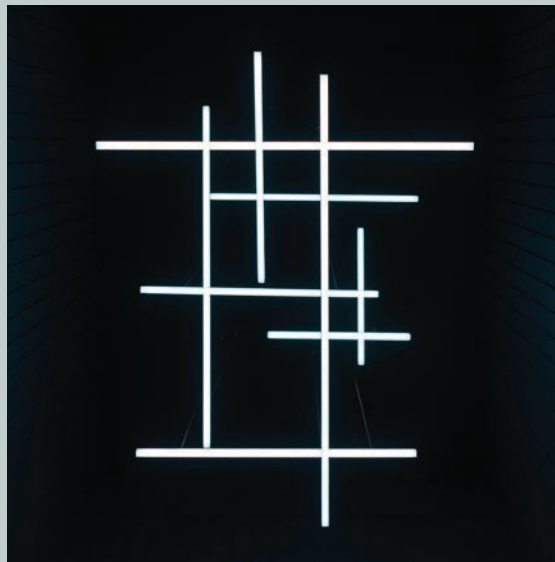

Sincerely,
SERGE MAGARIK
Founder | CEO

LIGHTING INDUSTRY + LED INNOVATIONS

WITH A UNIQUE FOCUS ON LED TECHNOLOGY, VONN PRESENTS LUXURY LED LIGHTING SOLUTIONS THAT GO BEYOND CREATIVE INNOVATION AND QUALITY.

DISTRIBUTION MANUFACTURER

INSPIRATION & DESIGN

Deeply rooted in European design, our attention to detail, passion for precision, and the use of elite quality materials in our craftsmanship make up the essence of our LED Lighting. Utilizing advanced rendering tools like 3D modeling, virtual reality, and CGI, our global design team works with safety experts to curate a variety of designs and custom projects.

PRODUCT DEVELOPMENT

Our heavy investment in research & development allows us to bring you the most innovative technology quicker than our competitors. We partner with and work alongside the world's top architects, interior designers, and lighting consultants. As a result, we are well equipped to curate design and lighting solutions no matter the scale.

MANUFACTURING

Our futuristic production facilities follow rigorous standards for quality and safety control while remaining streamlined. We have built a hyper-efficient global supply chain that allows us to manufacture lighting for both Residential and Commercial Projects, all while maintaining the same superior caliber our craftsmen use to produce individual lighting pieces.

LOGISTICS & FULFILLMENT

VONN operates on the most advanced cloud technology systems, such as Salesforce and SAP, which allow us to fulfill and process orders in an impressive timeline. We have developed state-of-the-art 3PL distribution centers that can ship items on behalf of each distributor, at the aggressive order fulfillment rates demanded by our partners.

CLIENT SERVICES

We are proud to prioritize and be passionate about our customers. Each of our customers receives individual care and is supported by a team of LED Lighting specialists who are on call to help identify the best lighting fixtures for their project, as well as recommend local experts.

VONN

WE ARE PROUD TO PRESENT YOU WITH A WIDE RANGE OF RESIDENTIAL AND COMMERCIAL LED LIGHTING PRODUCTS

Our commitment to form, technology, and precision defines our brand; we love what we do and we deeply value our leadership position within the lighting industry. Everyday, our focus at VONN is to revolutionize interiors through striking, high-end designs, and time-tested quality for everyday living.

DOWNLIGHTS & LINEAR PENDANTS

Upgrade the ambiance of your space with the sleek and powerful lighting of VONN LED Downlights. With adjustable features that allow for more flexible lighting within the space and CRI of 90 to reflect the true colors of each vehicle. VONN LED Downlights help optimize your lighting design, adding sleekness, modernity, and saving space.

CUSTOM LIGHTING DEALERSHIPS

Large spaces, such as dealerships, require more attention to detail and good lighting. For this space, it is very important to maintain versatile functionality while also being creative. With large spaces, lighting needs to be properly distributed so no matter how the vehicle and products are arranged, lighting will always be constant and functional.

CUSTOMIZE YOUR SHOWROOM

LUXURY SHOWROOM LIGHTING

Create a brand experience by designing your lighting to be an impactful factor in the space. Lighting has the ability to affect the way a consumer feels about your products; too much brightness can be a distraction, while too little hides the amazing details and features of your subject. Your luminaires should match the look of the elements in your space. Make sure the lighting equals the sleek and innovative design of the subject matter.

TRACK LIGHTING *by Vonn*

- ▶ Stylish and compact design with integrated driver.
- ▶ Excellent modular combination concept
- ▶ Light efficiency is up to 95lm/W
- ▶ Interchangeable lens: 15°, 24°, 40°, 60°
- ▶ Privately-designed joints can hold the lights at any position without malfunctions.
- ▶ 360°+ rotation without dead angle and 90° vertical aiming

Vonn Track Lighting is designed for retail, gallery, and exhibition spaces. The driver compartment is preset from the optical compartment, assuring excellent thermal dissipation and a balanced design. Interchangeable beam reflectors can help you to change the beam reflector without tools.

ADJUSTABLE SPOT LIGHTING

■ TRACK LIGHTING

The spotlights can be adjusted precisely 360° horizontal (rotation) and 90° vertical. The light, as a result, is emitted to where you need it. The integrated driver gives a clean feeling, and the ceiling will not look cluttered with drivers aimed in different directions.

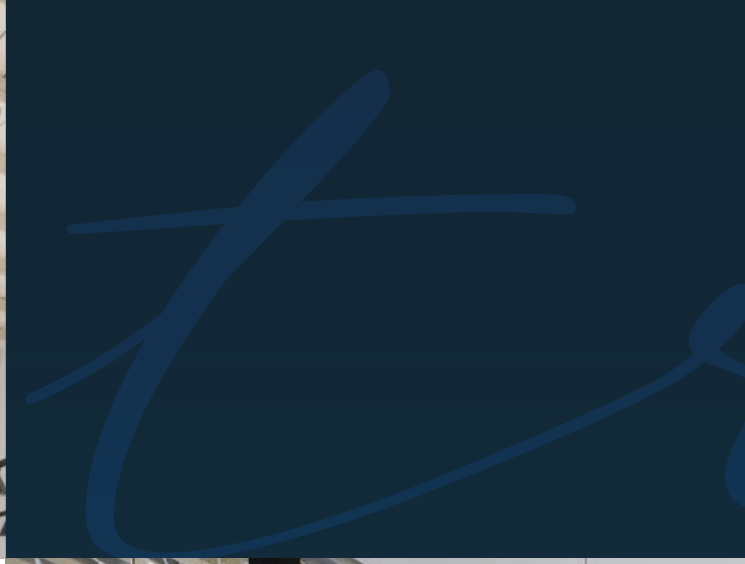

VLT TRACK SYSTEM

by Vonn

VONN offers a stylish and compact LED track lighting system that will fit smoothly into any retail space, showroom window, or museum where a very narrow spotlight is required. By simply adding extra optical accessories, the light shape can be changed to square, rectangular or oval, and will create a unique and inviting atmosphere.

VLT TRACK SYSTEM

by Vonn

A simple, elegant design that is both easy to adjust and firmly retains its settings, Vonn track lighting is always ready to put on a great performance no matter the application.

Vonn Track Lighting offers precise yet gentle accent lighting with high performance for an extraordinary lighting experience in any commercial or residential application. Sharp contrast and uniform light distribution set exhibit center stage perfectly while at the same time minimizing the illumination of unwanted light on interior walls.

UNIVERSAL STRUCTURE
DESIGN TO MEET THE NEEDS
OF LUMINANCE AT DIFFERENT
LOCATIONS.

DECORATIVE
COMMERCIAL | RESIDENTIAL

CHANDELIERS

While some modern overhead lighting options, like simple flush mounts, are built to blend in, modern chandeliers are made to stand out.

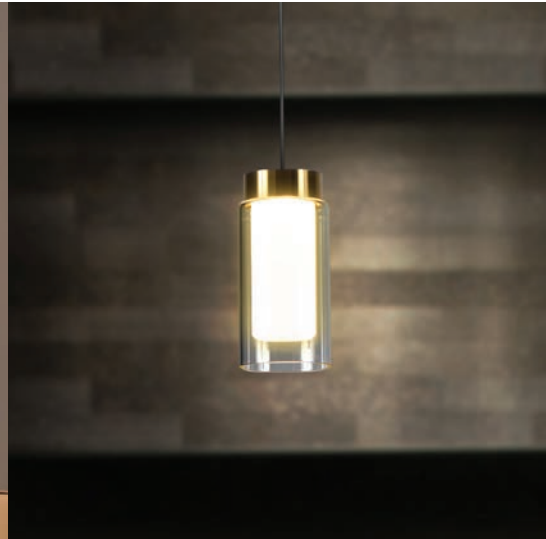

■ CHANDELIERS

Our contemporary-modern chandeliers add brightness and style to dark rooms and are available in a variety of interesting shapes and colors.

PENDANTS

Pendant lighting is a simple and tasteful way to upgrade your home's lighting from the entryway to the home office.

■ PENDANTS

A simple trio of pendant lights hung above a bar or dining table transform a ho-hum dining area into a modern, open space. Pendant lights work in the coziest breakfast nooks as well as massive great rooms with soaring ceilings.

WALL LIGHTS

Proper lighting is important in every home. While most rooms will have a ceiling light, it may not be bright enough to fully illuminate a larger space.

WALL LIGHTS

WALL LIGHTS

Adding wall sconces will not only bring extra brightness to the room but also create an inviting atmosphere.

These small fixtures can also be quite useful in situations where you only need a small amount of light, while watching a movie or reading a book.
