

85"
(2159mm)

The diagram shows a technical drawing of a pendant light fixture. At the top is a rectangular canopy. A vertical stem descends from the canopy, featuring a break symbol (two parallel diagonal lines) to indicate that the stem is longer than shown. The stem terminates in a socket that holds a rectangular, cylindrical light bulb. The light bulb is enclosed within a teardrop-shaped, glass-like shade. The shade is wider at the top where it meets the socket and tapers to a point at the bottom. Dimension lines with arrows indicate the following measurements: a vertical line on the left side of the entire fixture from the canopy to the bottom of the shade is labeled '85" (2159mm)'; a vertical line on the right side of the shade is labeled '12" (305mm)'; and a horizontal line at the bottom of the shade is labeled '5" (127mm)'.
