Fan
Inspiration

Ceiling Fans can serve as a statement
piece or even the focal point of a room.

Today's ceiling fans
incorporate beautiful features,
such as hand carved blades,
sleek finishes and natural
elements to appeal to a variety
of different design trends.

At Progress Lighting, we strive
to incorporate this shift in our
ceiling fan designs and are
eager to present an expanded
offering in this catalog.

The Perfect Fan in 5 Steps

Ceiling Fan *Buyer's Guide*

Ceiling fans are practical and efficient solutions for creating comfortable and welcoming living areas. With many styles, functions and features to choose from, narrowing down the choices can be a challenge. Here we present five tips for selecting the perfect ceiling fan for your home.

1 Settle on Style

Choose a style that complements your décor. Consider fan shape, blade features and finish to help you meet your room's design needs. Choose from Traditional, Transitional, Coastal or Farmhouse styles. The possibilities are vast!

Modernly Minimal

② Explore Indoor vs. Outdoor Uses

Fans provide a breezy setting for reading a book or catching up with friends, making them ideal for outdoor rooms. However, it's important to consider the certifications on the fan depending on the use. For high humidity areas, choose a UL-Listed fan for Damp Locations and for spaces that will be exposed to weather, choose a UL-Listed fan for Wet Locations. For interior use in dry spaces with minimal condensation, select a UL-Listed fan for Dry Locations. See testing listings defined on page 17.

The Perfect Fan in 5 Steps *continued...*

36" - 42"

84"
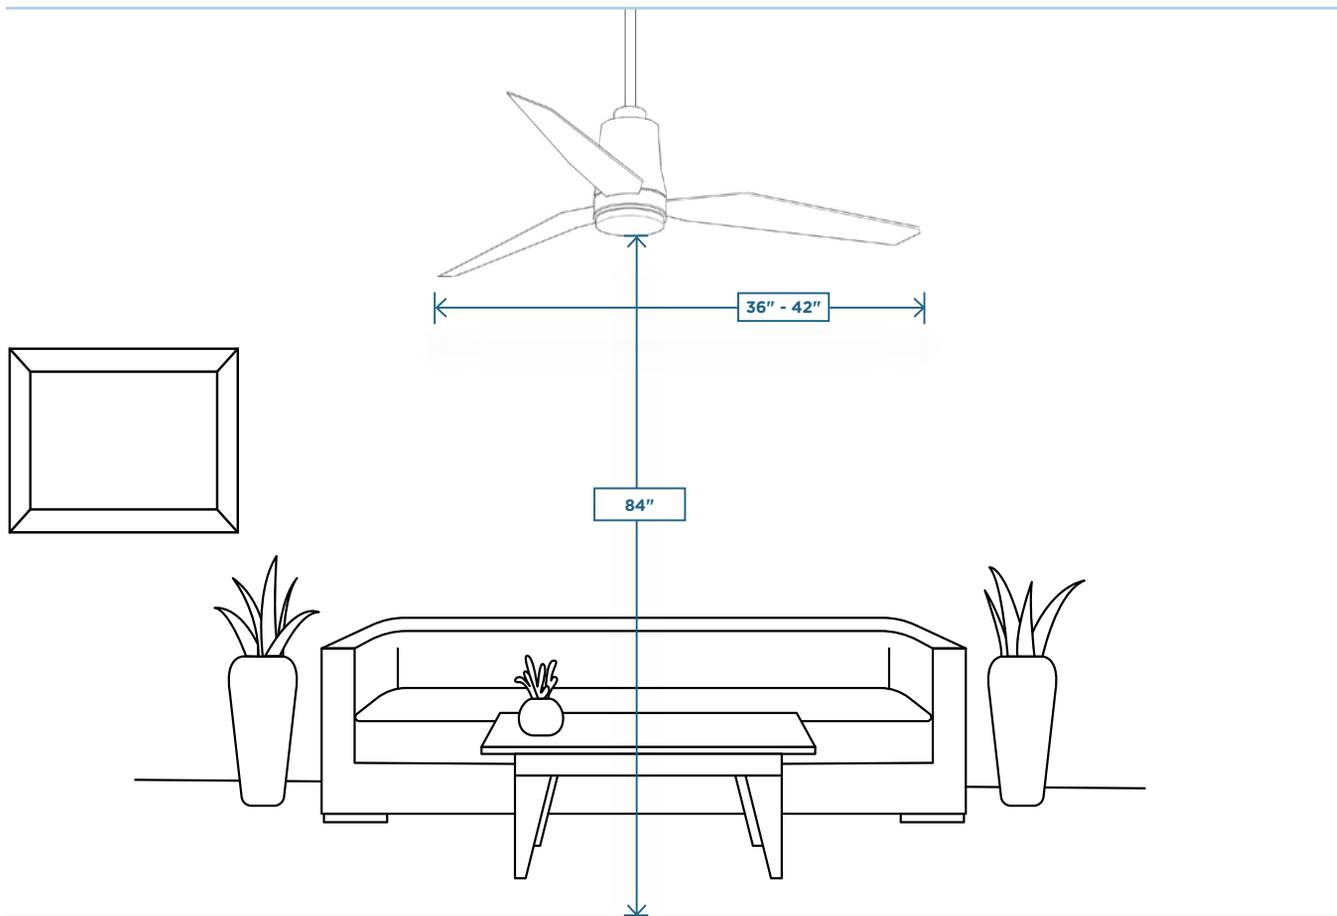

③ Get Your Height Right

You want to allow at least 7 feet (84 in.) from the floor to the bottom of the fan, with 8 or 9 feet being the ideal above-floor placement. For lower ceilings, consider a ceiling fan with a low profile to avoid disturbing inhabitants. Most ceiling fans come equipped with a down rod to help you adjust to the correct height.

④ Size It To Your Space

Size is really important when selecting your ceiling fan. If a fan is too large, it can overwhelm the space. On the flip side, if the fan is too small, the airflow may be inadequate for that area.

Room Size	Fan Size
(in square feet)	**(in inches)**
0 - 75	0 - 36
76 - 144	36 - 42
145 - 225	42 - 50
226 - 360	50 - 54
361 - 499	54 - 70
500+	70+

The Perfect Fan in 5 Steps *continued...*

5 ## Choose Your Features

There are many different features to choose from when browsing ceiling fans.

Blade Finish Options

Multiple blade finish options to coordinate with your home decor.

Example blade options for P2568-1530:
- Medium Cherry
- Black

LED

Consider an LED or Energy Star rated fixture to save energy.

Reversible Motor

Typically, ceiling fans are used to help cool you down and keep the air flowing with a counter-clockwise blade direction. However, fans can also keep you warm when the direction of the blades is reversed. Select a fan with reversible motor for the option to circulate cool or warm air. Most ceiling fans have a small switch located either on the motor housing or the switch cup.

P2568-1530

Remote Control with Full Range Dimming

P2662-01

Full range dimming and hand-held remote control capabilities are available to offer an added convenience in controlling a room's environment.

Light Kit

For a layered lighting effect, install a ceiling fan with a pre-installed light kit to complement your existing fixtures.

Scan for "The Perfect Fan in 5 Steps" with Steve Register or visit **youtube.com/user/ProgressLtg**

LED Light Kits

Save Money and Energy

When you select a high-quality LED fixture, you can expect a significant return on investment from an energy conservation standpoint. Here are some of the energy saving benefits of LEDs from Progress Lighting:
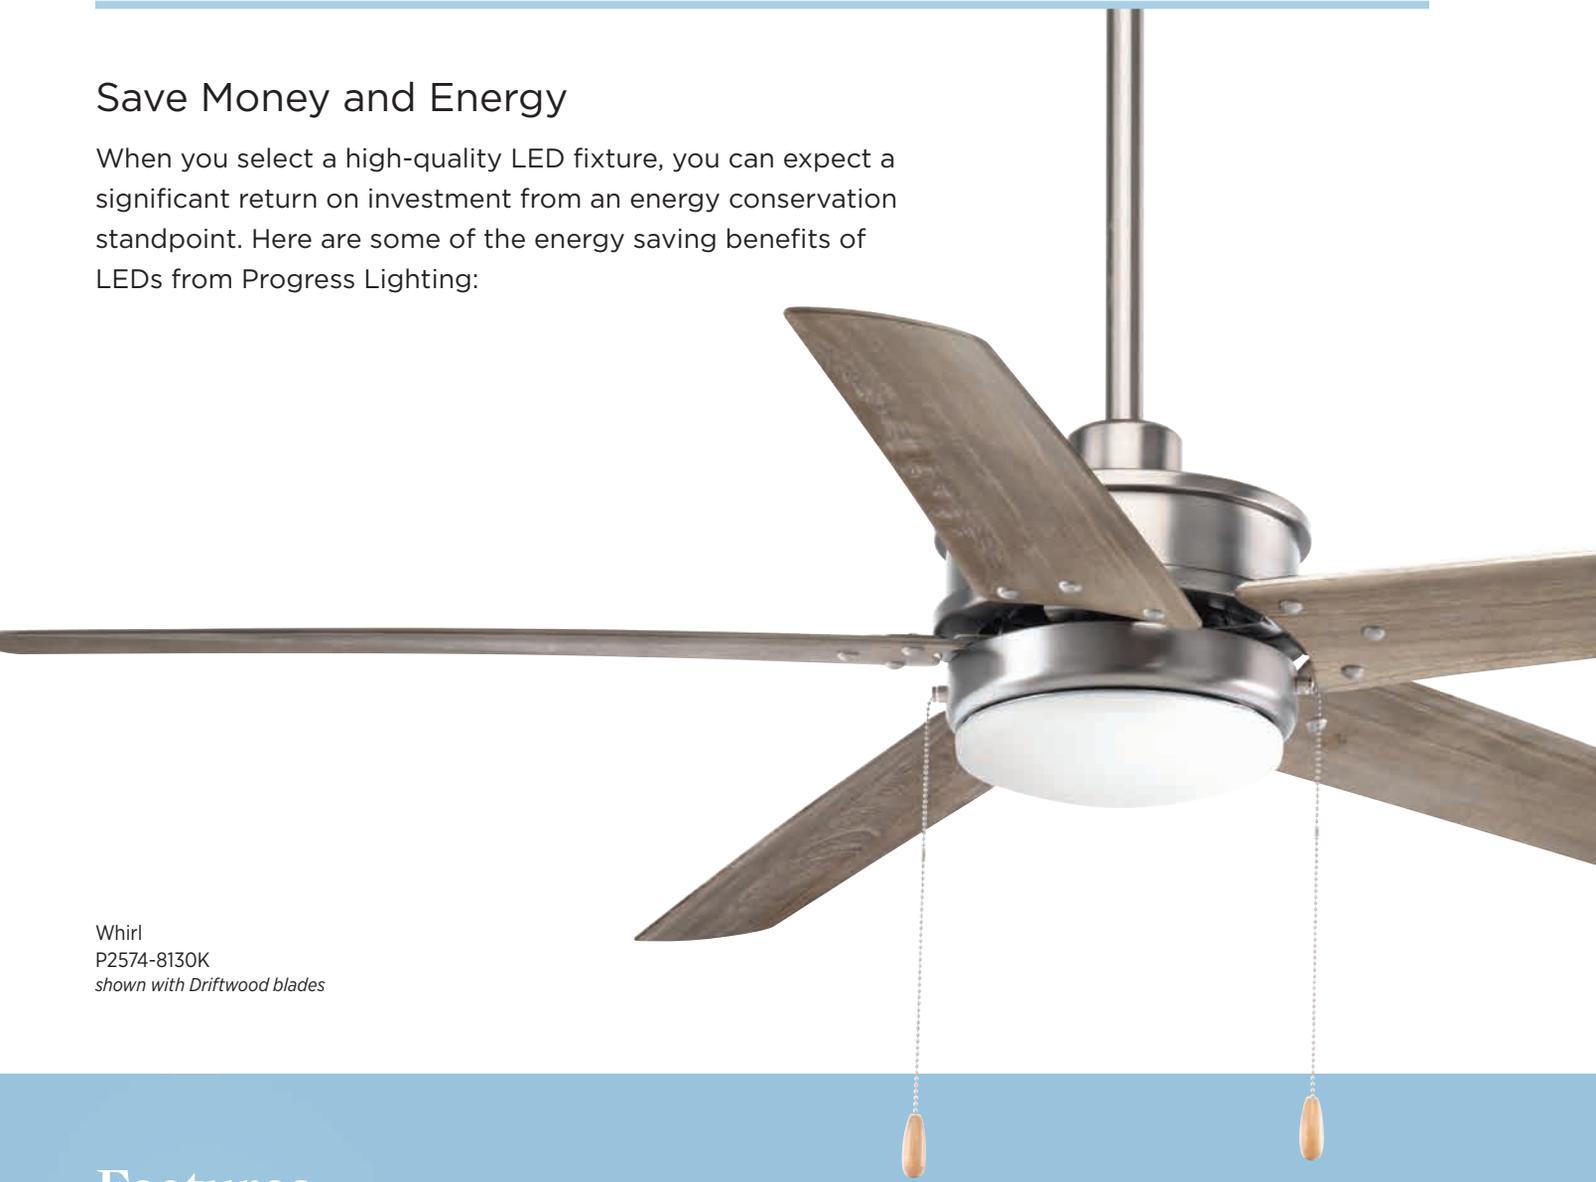

Whirl
P2574-8130K
shown with Driftwood blades

Features

LED sources use at least 75% less energy than incandescent lighting, allowing homeowners to save on operating expenses.

LEDs last 35 to 50 times longer than incandescent sources and approximately 2 to 5 times longer than fluorescent lighting. Meaning, less bulb maintenance!

LEDs do not use power when they are turned off. According to MSN Real Estate, LED lights can result in an annual bill as low as $26.

LEDs do not produce heat like traditional sources, reducing cooling costs. Traditional incandescent bulbs waste 98% of the energy they consume on heat.

Find Your Rating

Indoor, Damp and Wet Location

All ceiling fans sold in the United States have been tested and rated by either Underwriters Laboratories (UL) or Intertek (ETL), each an independent product safety certification organization. It's important to pay attention to the rated listing when purchasing a ceiling fan as it will tell you what location the fan was designed for. There are three location options: dry, damp and wet.

Image: Dostie Homes

Dry Location

Please note indoor only (dry location) fans should only be used indoors. Even if an outdoor area or screened-in porch is covered, the motor and the blades can be affected when exposed to humidity. You can, however, "bring the outdoors inside" – as using outdoor ceiling fans are perfectly acceptable to use in interior spaces.

Damp Location

If you are selecting a ceiling fan for a space that is outdoors and under a roof, i.e. any covered porches; you should select either a damp rated or wet listed fan. Damp location fans may also be used indoors.

Image: Arthur Rutenburg Homes

Wet Location

If the fan comes directly into contact with water, you'll need to ensure that the ceiling fan has a "wet" listing. Ceiling fans designed for damp or wet locations feature elements, such as moisture-resistant motors and all weather blades. Wet location fans may also be used indoors.

Ceiling Fans*

Modern + Edgy

with Steve

Quirky and functional, this style's flair comes from its modern, yet retro, juxtaposition. Mid-Century Modern style furniture adds unique shapes and pops of color to a room. Designers look for statement pieces to complete the look. This style is gravitating toward a cleaner, more minimalistic look through the incorporation of a neutral palette and softer accent colors. Mid-Century

Modern homes are largely characterized by the use of wood textures to create a sense of connection to nature and the outdoors.

Shop this style at
www.progresslighting.com/mid-century-modern

Springer

P250000-081
shown with White Barnwood blades

Springer is a statement-making ceiling fan with a rustic flair. The 12-blade, 60″ ceiling fan was inspired by the form and function of a windmill and is ideal for Farmhouse, Industrial and Transitional interior settings. A full function remote control with batteries is included along with a dual mount canopy that accommodates flat or sloped ceilings.

Modern Farmhouse design embraces tradition but is firmly planted in the present.

1

Look for details like the beautifully carved, solid wood fan blades of the Farris ceiling fan that centers the room with statement-making style.

2

Modernize a traditional approach by contrasting a light and airy palette with a natural stone fireplace, weathered wood mantel and exposed beams.

3

Use organic materials for decorative accessories like greenery, wood and cozy textiles to add a welcoming touch.

Gulliver

P250012-141-22
shown with Antique White Wood

Three circular bands wrap together to create an open design. Non-metallic fan blades enclosed within a stylish cage design gives the rustic charm of a pendant combined with the functionality of a ceiling fan. Dual toned frame color combinations of Galvanized with antique white accents or Graphite with weathered gray accents. A hand painted wood grained texture complements rustic and modern farmhouse home decor, as well as urban industrial and coastal interior settings.

An Industrial Edge

A simple but edgy
vibe takes its cue from
industrial origins.

1

Try a fandelier style ceiling
fan like Sanford that delivers
ultra-powerful air movement
packaged in a vintage design.

2

Toss your table lamp and try
two low-hanging pendants
over the nightstand instead.

3

Finish the room with
organic elements of wood
and worn textures that
celebrate the signature look
of the industrial setting.

Ellwood

P2546-09

Clean and Natural

Indoor-outdoor
living begins with
organic origins.

1

Select a large ceiling fan
like Vast in covered outdoor
areas to move air while
making a design statement.

2

Bring the outdoors in with
weathered wood furniture
and organic decor.

3

Use a cool color palette
and eye-catching architectural
features like a double
fireplace for a sophisticated,
resort-like feel.

Arlo

P250026-009-30
shown with Brushed Nickel blades

Unwind under the cooling breeze created by the clean, crisp blades of the Arlo collection's modern ceiling fan. A central LED light provides a perfect way to light a space without flooding the room with harsh light as six metal blades attach to the fan's center. Offered in three different finishes, Arlo is sure to create an intriguing, yet serene retreat in whatever space it calls home.

Inspirational Elements

3

Patterns and curves inspire the design of the room.

1

Select a sleek, contemporary fan like the two-blade Spades to harmonize with the contemporary feel of the living area.

2

Take one element, such as patterned window coverings, to inspire the rest of the room's palette.

3

Nothing jump starts design envy like architectural elements like an interesting ceiling.

Holland

FINISHES
- Brushed Nickel - 009
- Black- 031
- Oil Rubbed Bronze - 108

Enjoy nothing but first-rate design inspiration with the gorgeous Holland collection. Four simple, yet stunning blades blend style with sustainability as they anchor to a sleek, dual mount center. An integrated LED light is ready to offer a gentle glow along with the fan's refreshing breeze. With the versatility to be installed in indoor or outdoor locations, this fan will make a design statement in any modern or transitional setting.

Casual, Modern Charm

2

Craftsman style gets modern flair with clean and bright design.

1

Hang a sleek Gust fan from a paneled ceiling for Craftsman style with a modern edge.

2

Pair farmhouse-style furniture with cozy textures and neutral colors for casual comfort.

3

Break up a bright space visually with a handcrafted, dark wood door.

Accessorize with Style

Pops of blue and plenty of collectibles give a room personality.

1

Select a ceiling fan like Billows, whose whitewashed-finish blades accentuate the organic textures in the room.

2

Follow your style by curating your space with treasures that you love.

3

Pick a focal point like the rough stone fireplace and use its natural color palette to inform the color choices for the rest of the space.

45° Canopy

- Standard canopy works with sloped ceilings up to 45°. (12:12 ceiling pitch)
- Outlet box mounting plate includes convenient hands-free hanger for wiring.
- Oversize, textured die-cast hanger ball reduces vibrations that can cause noise and wobble.
- Dual-mount for downrod or close-to-ceiling installation (on select fans)

SureConnect® System

- Motor screws pre-installed in blade arms to prevent them from falling out during installation.
- Special guides perfectly align blade arms to motor.
- Preinstalled rubber isolation pads prevent vibration noise.

Relaxed ③

Organic Shapes ①

Beach Accents ②

Easy, Breezy, Coastal

with Dan

Dan McGinty
Product Designer

Bring your home right to the ocean side with beach-inspired accents, organic furnishings and an overall relaxed feel. Designers often create a relaxed and open environment with soft throw blankets, pillows, cozy rugs and cushioned furniture to complete the Coastal look. Focus on an all-white color palette for your coastal inspired home, while incorporating in soft beachy hues to complement the look.

When it comes to selecting materials for flooring, décor and furniture, seek out dark or weathered wood pieces to emulate a seaside environment nestled nicely by the shore.

Shop this style at
www.progresslighting.com/coastal
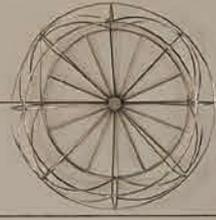

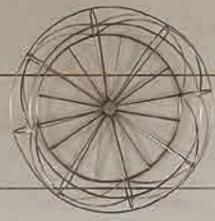

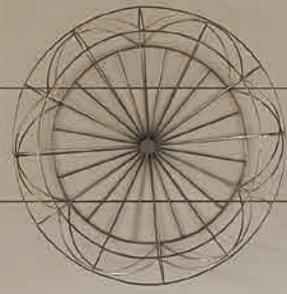

Alfresco

P250034-129-WB
shown with Dark Bamboo blades

Infuse a warm, nature-inspired style to your outdoor home décor with the one-of-a-kind Alfresco collection. Five blades decorated in a leaf-like design sprout from a dual mount center that artistically harbors an LED light source. Select from an Architectural Bronze and blistered iron finish to bring your bohemian dreamland to life.

Edisto

P2596-8030K
shown with Charcoal Canvas blades

The Edisto 54″ two-blade outdoor ceiling fan combines a sleek, contemporary style with high-quality performance. A wire frame supports canvas wrapped blades that feature UV inhibitors to protect the fabric from fading in the sunlight. Three fan speeds and a reversible switch keep individuals cool in the summer and warm in the winter. A white opal glass shade contains an 18W LED module light kit, offering energy efficient and cost savings benefits.

The Living is Easy

2

Kick back and relax in a room that brings the outside in.

1

Choose a fan filled with style like Edisto, whose canvas-wrapped blades offset the sleek look of its forged black finish.

2

Use rough-hewn wooden beans to punctuate walls and ceiling with rustic style.

3

Incorporate organic touches of wood and rattan for comfortable, relaxation-ready seating.

Whirl

P2574-8130K

Glass Decor

Modernly Minimalism

with James

James Thomas
Senior Product Designer

Modern interiors showcase sleek design through the use of neutrals, a minimalism approach, and the use of glass décor and technology. Take advantage of spaces with wide windows and use glass in other details such as countertops and furniture. This creates a sleek design for interior spaces. Integrate new innovations into a home's décor by adding elements, such as voice activated devices and remote controlled light dimmers. To accentuate a Modern color palette, stick to neutral shades, as well as an overall minimalistic design to create this look.

Remotes, Wall Controls & 45° Canopies

P2662-01
Fan/Light Remote
Universal remote operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring four "dip" switches and 16 code options to avoid the chance of interference from other remotes.

P2663-01
Fan/Light Remote
Universal remote with two, four or eight-hour timer option, operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring many code combination options to avoid the chance of interference from other remotes.

P2618-01
Fan/Light Remote
Provides fan speed and light control from convenient hand-held remote. Compatible with non-dimmable compact fluorescent lamps. For single pole applications. Receiver fits in fan canopy.

P2661-01
Universal Fan/Light Remote
Provides fan speed and full range light dimming control from a convenient hand held remote control. For single pole applications. Includes a wall plate for added storage convenience. Receiver fits in the fan canopy.

P2667-31
Wifi Fan/Light Remote
Universal Wifi remote control for AC motor fans. Control your ceiling fan or light kit via Wifi from anywhere. Pairs with Alexa, Google Home, or app on your phone or tablet. Voice control the fan with three speeds and the light with full range dimming. App control the fan with three speeds or four timer selections or full range dimming control of the light. Can be controlled with the hand held remote included with the kit.

P2665-30 White
Universal remote includes a wall mount transmitter, ideal for multi-family applications, that operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring four "dip" switches and 16 code options to avoid the chance of interference from other remotes.

P2631-30 White
Full-function wall control transmitter (receiver sold with ceiling fan). Use with, or in place of, hand-held remote included with fans that have a downlight. Includes switch plate cover.

P2630-95 Ivory
Four-speed fan wall control with full-range light dimmer. Fits single-gang wall box; requires two circuits. Includes switch plate cover. Not for use with multiple fans.

P2630-30 White
Four-speed fan wall control with full-range light dimmer. Fits single-gang wall box; requires two circuits. Includes switch plate cover. Not for use with multiple fans.

P2613-95 Ivory
Four-speed fan wall control. Includes switch plate cover. Not for use with multiple fans.

P2613-30 White
Four-speed fan wall control. Includes switch plate cover. Not for use with multiple fans.

PROGRESS LIGHTING™

All finish representations are part of Progress Lighting's comprehensive design and specification program. Through extensive research, these finishes have been carefully chosen to compeiment all Progress Lighting products, including our extensive range of materials and accessory options.

These finish representations match actual finish colors as accurately as possible, and while every effort has been made to render colors accurately, they may vary slightly from the actual product, especially hand-painted finishes due to the nature of hand craftsmanship.

Product Index

Products referencing this logo meet the energy efficiency requirements for light fixtures set forth in ENERGY STAR® product specifications. Please refer to www.energystar.gov for specific product qualifications and list of certified products.

Please note indoor only (dry location) fans should only be used indoors. Even if an outdoor area or screened-in porch is covered, the motor and the blades can be affected when exposed to humidity. You can, however, "bring the outdoors inside" – as using outdoor ceiling fans are perfectly acceptable to use in interior spaces.

If you are selecting a ceiling fan for a space that is outdoors and under a roof, i.e. any covered porches; you should select either a damp rated or wet listed fan. Damp location fans may also be used indoors.

If the fan comes directly into contact with water, you'll need to ensure that the ceiling fan has a "wet" listing. Ceiling fans designed for damp or wet locations feature elements, such as moisture-resistant motors and all weather blades. Wet location fans may also be used indoors.

JA8 This marking indicates fixtures that have an integrated LED or replaceable LED module that has been tested and listed in the California Appliance Database. Check for certified lamps, fixtures or LED light engines by searching the MAEDBS database. Go to cacertappliances.enegy.ca.gov

ADA Complies with "American with Disabilities Act"

T24 Table 150.0A defines products that do not have to meet JA8 and can be used to comply with 2016 Title 24. The most common types include:
- Pin-based linear or compact fluorescent light sources using electronic ballasts
- GU-24 sockets containing light sources other than LEDs
- Inseparable SSL luminaires that are installed outdoors

T20 Products comply with the California Appliance Efficiency Regulations. Certified products are listed on the appliance efficiency database found at www.appliances.energy.ca.gov.

Products with this icon are Dark-Sky Friendly: they are certified by the International Dark-Sky Association to minimize glare while reducing light trespass and skyglow (they don't pollute the night sky.)

The products with this logo have passed the cUL requirements and are available for sale in Canada. These products include the additional safety features needed to comply with the regulations in Canada. Items with the icon are listed with NRCan.

Products with this icon are compatible with our P2667-31 wi-fi control. Easily control your fan with your smart phone, tablet, voice controls or a hand-held remote. Use the Smart by Bond technology to control: on/off function of the fan and light kit, full range dimming, 3 fan speeds, breeze mode and 3 timer settings.

Warranty

For more details regarding product warranty coverage, please consult a qualified Progress Lighting distributor or visit:

www.progresslighting.com/warranty

Where to buy

To purchase Progress Lighting products from one of our authorized dealers visit:

www.progresslighting.com/where-to-buy

Equip.
Educate.
Excite.

These three words define the mission of Progress Lighting. Flip through our catalog, and you'll quickly see how we equip you with the education to make all your exciting design dreams come true. Not sure where to start? Whether you're browsing our catalog or visiting our website, Progress is at your service to help you envision where and how to use our products.

Experience Progress

Learn how lighting can totally transform a space. Experience Progress features beautiful room images from our builder partners, design firms, social media fans and influencers bringing the Progress Lighting story to life.
