

An abstract geometric composition featuring a network of black and white lines on a black background. The lines are of varying thicknesses and orientations, creating a complex, layered structure. Some lines are straight and vertical, while others are diagonal or horizontal. The white lines stand out prominently against the black background, creating a high-contrast visual effect. The overall impression is one of modern, minimalist design.

SONNEMAN®
A WAY OF LIGHT

Celebrating 60 years of design innovation

Drawing on the SONNEMAN mid-century design heritage, the 2023 Collection extends the Bauhaus ethos of new design for modern living, exploring the combinatorial effect of bold materials and LED technology. The result: an expression of structure that places light at the heart of classic and contemporary interiors.

Conceived to radiate comfort for a range of residential, hospitality and commercial spaces, the 2023 Collection celebrates lighting as a way of thinking with designs of unparalleled flexibility, detail and durability.

Grapes

Grapes are luminous LED spheres in multiple sizes, arrayed in precise or random patterns, in clusters, or as single points of light. Seen from the middle or above, the crystal appears clear with a subtle luminance. Moving below, the crystal facets become increasingly apparent, refracting the light into a dazzling radiance.
