SONNEMAN®
A WAY OF LIGHT

ADDITIONS

2015

With Additions to our A Way of Light catalog, we continue our mission to innovate, design, develop, and produce relevant contemporary lighting of extraordinary quality for sophisticated environments.

SONNEMAN
A WAY OF LIGHT

Grapes are luminous LED spheres in multiple sizes,
arrayed in precise or random patterns, in clusters, or as single points of light.

grapes™

SONNEMAN
A WAY OF LIGHT

A precisely crafted metal hemisphere
with an infinity wave captures a crystal semisphere
through which LED illumination is projected.

Grown in three sizes and two finishes, Grapes offers broad
variety and infinite possibilities to provide spectacular
illumination to spaces from the most intimate to the
most vast.

The polished chrome variety of Grapes features a faceted
interior on its solid clear crystal, providing sparkling
illumination that changes with the point of view.

Seen from the middle or above, the crystal appears clear with a
subtle luminance. Moving below, the crystal facets become
increasingly apparent, refracting the light into a dazzling radiance.

Stiletto's ultra-sophisticated and extraordinarily precise solid acrylic is thrust through a minimally present aluminum channel, radiating perfectly even LED illumination from within. Stiletto Lungo mounts flush to the wall without a canopy.

SONNEMAN
A WAY OF LIGHT

SONNEMAN
A WAY OF LIGHT

Perfect above a bed, couch, mirror, or desk, Aileron provides abundant, glare-free ambient or task illumination. Aileron dramatically bathes a surface, column, or architectural element with a soft radiance. Or, mount Aileron under a shelf to provide illumination to the surface or situation below it.

2704.98

aileron flat panel lighting system

This slender and graceful wing-like form mounts horizontally or vertically, and can provide direct or indirect illumination by simply rotating the panel: towards the wall for ambient light, or away from the wall to illuminate a subject or surface.

Unique to the Aileron flat panel lighting system is its revolutionary mounting system. The continuous extruded wall mount compliments the slim linear form, and mounts directly over a 2" electrical box. Optional mounting rail attachments blend smoothly into the profile and extend the height of the mounting bracket to cover a full-size outlet box anywhere along its length, as needed.

2704.16

2702.16

Aileron is available in 12", 24", and 36" lengths.
