MAINTENANCE:

Use a soft, lint - free cloth to clean the metal frame.

UNDER NO CIRCUMSTANCES SHOULD METAL POLISHES, CLEANERS, ABRASIVES OR AEROSOL SPRAYS BE USED.

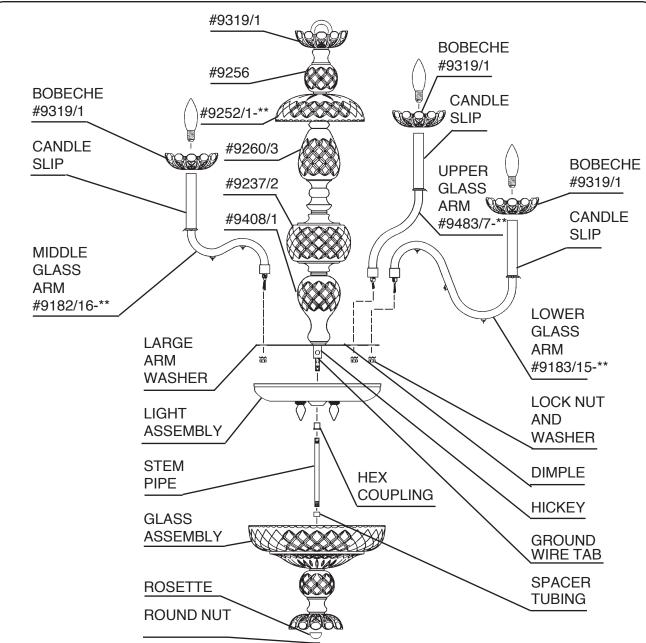

While the latest finishing techniques have been used on the metal frame, such finish cannot be unconditionally guaranteed. The main cause of deterioration, apart from certain atmospheric conditions, is improper cleaning.

To clean the crystals, polish with a damp chamois.

You are cleaning delicate jewelry... Take the greatest care.

IMPORTANT:

Do not clean crystals in a dishwasher. The finish of the metal clips and hangers will be ruined and the crystals may be damaged.

8 Install upper arms into the inside holes on the washer. ALTERNATELY install the middle and lower arms into the outside holes on the washer. NOTE: THE FIRST LOWER ARM INSTALLED SHOULD LINE UP WITH A UPPER ARM. Line up holes in arms with dimple in washer. Use lock washer and nut to secure arms in place. Unscrew nut on nipple, place ground wire tab over nipple, secure with nut.

9 Connect bare ground wire in each arm to bare ground wire in center column. Use electrical tape to secure wire nuts. NO MORE THAN 5 - WIRES PER WIRE NUT. Sufficient quantities of jumper wires and wire nuts are provided. Connect white arm and light assembly wires to neutral column wire (ribbed or marked is neutral). Connect black arm and light assembly wires to power wire in column. Carefully press wires as close as possible to the underside of washer.

10 Attach light assembly with washer and hex coupling. Install 5 - C7 bulbs. Install bulbs, connect power and test the fixture BEFORE attaching glass assembly. If any of the bulbs do NOT light - DISCONNECT POWER. Double check the wire connections.
