## INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions, as you may need them at a later date.

### CAUTION

**WARNING:** Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor. Min 90°C supply conductors.

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

### GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

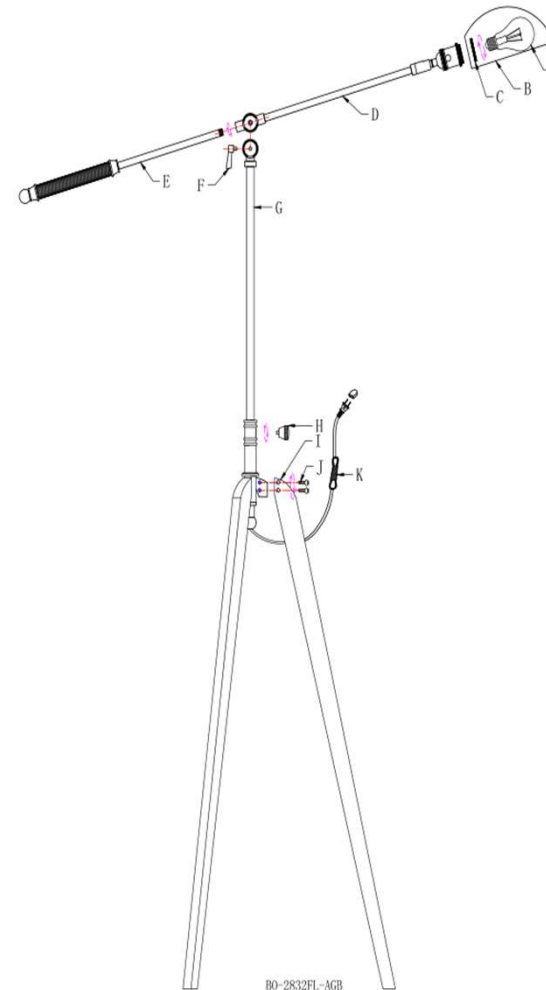

### ASSEMBLY AND INSTALLATION

1. Carefully unpack all parts from cartons..
2. Thread the Screw (J) through the LEG (I) into the BODY (G) using the spanner included and secure until tight.
3. Place the ARM 1 (D) into the ARM2 (E) and attached the BODY(G) fasten the HANDLE (F) until tight.
