Round LED Wall Sconce

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- Use ELV (Electronic Low Voltage) type of dimmer for dimming application
- 120V input

1. Remove the fixture from its original packaging. Separate mounting plate **(1c)** from canopy **(2f)** by removing canopy screws **(2g).** Attach mounting plate **(1c)** to electrical junction box **(1a)** using junction box screws **(1e)** provided in hardware package
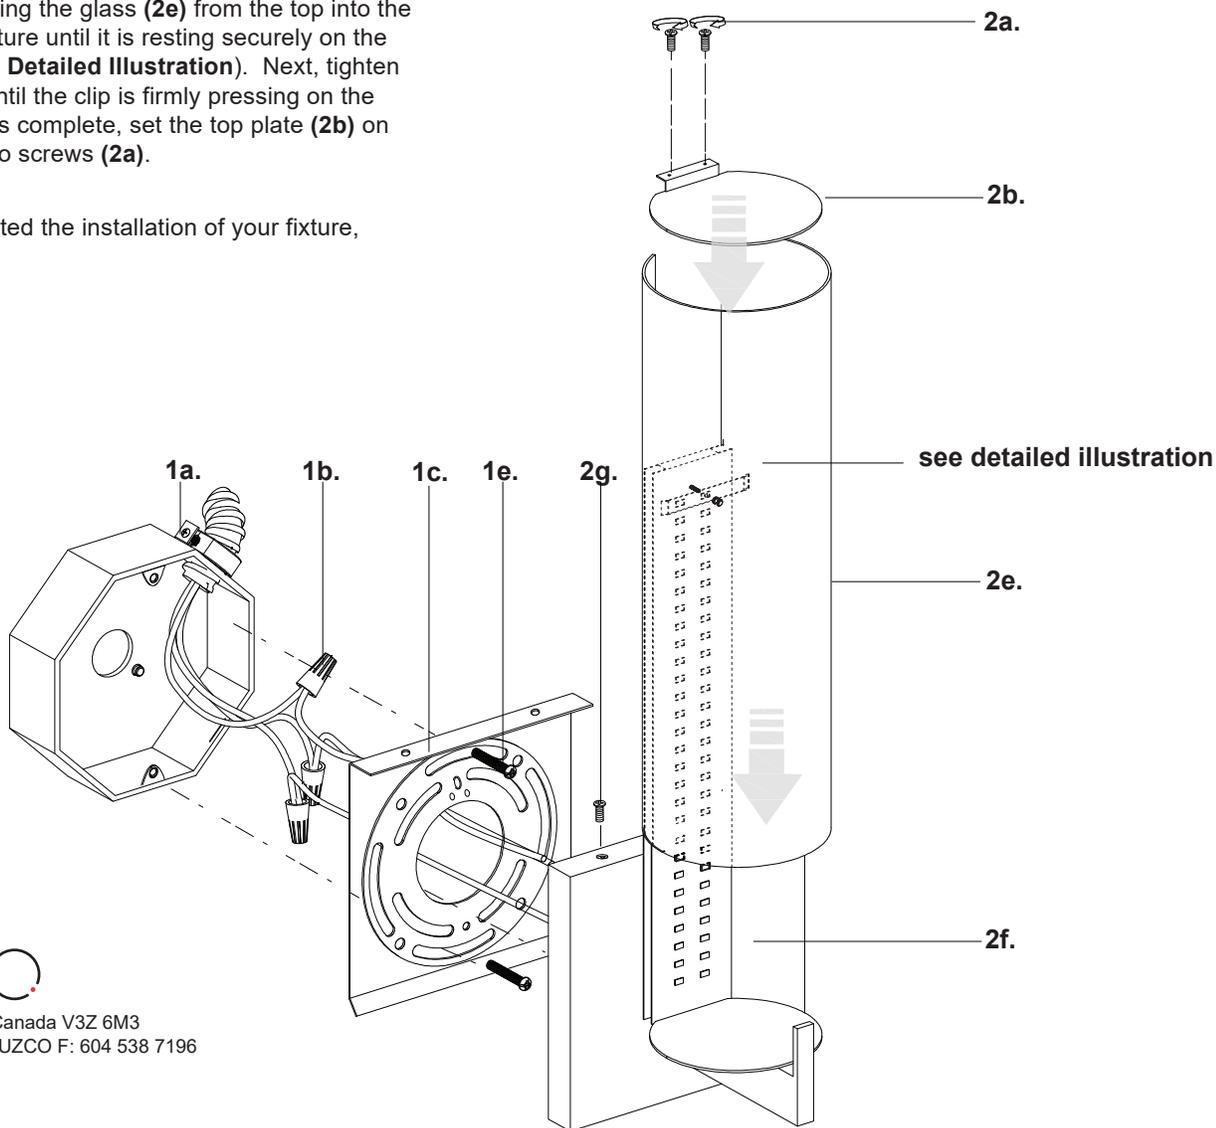

2. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package. Attach canopy **(2f)** to mounting plate **(1c)** with canopy screws **(2g)**.

3. Install the fixture glass to the fixture. The fixture glass is installed by gently sliding the glass **(2e)** from the top into the channel **(2c)** of the fixture until it is resting securely on the bottom metal bar (**see Detailed Illustration**). Next, tighten the knurled nut **(2d)** until the clip is firmly pressing on the glass **(2e).** Once this is complete, set the top plate **(2b)** on top and fasten with two screws **(2a)**.

4. You have now completed the installation of your fixture, please enjoy.
