

Kable Lite 4" Round Power Feed Canopy Dual-Feed

DESCRIPTION

A dual-feed canopy is mounted to a wall or ceiling adjacent to the Kable Lite run. It brings power to the Kable Lite run from a remote dual-feed transformer (sold separately). The low-voltage leads from the remote transformer are connected to the canopy leads inside a standard 4" junction box. The four leads from the canopy are 24" long and can be cut and bent in the field. To drop the Kable Lite system farther down from the ceiling, add two pair of hardwire feeds (sold separately). Isolating connectors for bare cable are included to isolate power feeds from each other.

INSTALLATION

This product can mount to either a standard 4" square electrical box or an octagon electrical box (not included).

OTHER

Black and white finish have chrome feeds. For use with a dual-feed remote transformer (sold separately).

WEIGHT

0.8lb / 0.36kg ±
