

ASSEMBLY INSTRUCTIONS FOR
POST INSTALLATION

A QUALIFIED ELECTRICIAN SHOULD PERFORM INSTALLATION.

1. Your artwork post is supplied with a template and 3 anchor bolts, each with 1 washer plus 1 cap nut.
2. Screw 3 bolts into the 3 holes of template. The bolts should extend 1-3/4" above the ground.
3. Prepare your ground hole to receive the template assembly with the wiring coming up the center. Applying cement, lower template onto the hole and level with template horizontally.
4. When cement is hardened, Connect wiring & slip post onto bolts & fasten with the washers and then the cap nuts.
