# LED Wall Sconce

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all times during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixture comes with pre-wired LED module(s)
• Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required
• 120V input

1. Remove fixture from its original package

2. Separate mounting plate **(1c)** from cover plate **(1d)** by removing tooth washers **(1i)** and separate from backplate **(2a)** by removing tooth washer **(1j)**, flat washer **(1g)** and nut **(1h)**

3. Attach mounting plate **(1c)** to electrical junction box **(1a)** using junction box screws **(1e)** provided in hardware package. Thread tooth washer **(1f)** to RTN on mounting plate **(1c)**

4. Secure cover plate **(1d)** to mounting plate **(1c)** with tooth washer **(1i)**. Attach backplate **(2a)** to cover plate **(1d)** with tooth washer **(1j)**, flat washer **(1g)** and secure with nut **(1h)**

5. Secure backplate **(2a)** to mounting surface with anchors **(2e)** and screws **(2f)**

6. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND"**) with wire nuts **(1b)** provided in hardware package

7. Align and insert backplate screws **(2d)** through holes on canopy **(3a)**, secure with nuts **(3b)**

8. Attach glass **(3c)** to canopy **(3a)** and install metal end plate **(3d)**, followed by glass holder bracket **(3e)** and decorative nuts **(3f)** to secure
