## Kable Lite Center Power Feed Dual-Feed

---

### DESCRIPTION

Center Power Feeds are generally used to bring power to a Kable Lite system when the transformer or canopy cannot be located directly above the run. The center power feed can be used anywhere within the run and includes a removable 4" round canopy and 12' of field-cutable softwire leads. Specify dual-feed when using a dual-feed transformer. Dual-feed canopy includes isolating connectors.
