WHAT WE PROVIDE

- Mounting Hardware
- Mounting bracket
- Metal with Acrylic shade
- 1 x Glass plate
- LED

WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code

Recommended Dimmers
(ELV) LEVITON Decora DSE06-10Z
(ELV) LUTRON Maestro MAELV-600
(TRIAC) LEVITON Decora Sureslide 6674
(TRIAC) LUTRON Diva DVCL-153P
(TRIAC) LUTRON Skylark CL SCL-153 or SCL-153P

GENERAL INFORMATION

All electrical connections must be in accordance with all ordinances, Local and the U.S. National Electrical Codes (NEC). These fixtures are intended for mounting to a standard 4" metal octagon outlet box. The box must be directly supported by the building structure and U.L. Recognized.

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.
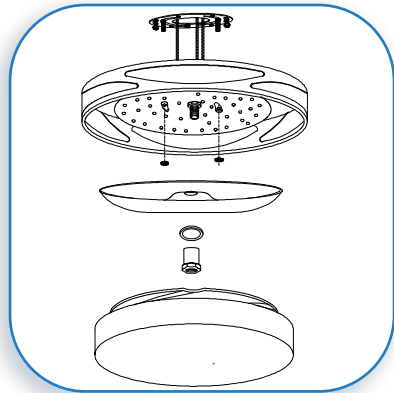

1

MAKE WIRE CONNECTION

If there is an existing fixture remove it. Expose the supply wires from the J-box. Mount the mounting bracket to the J-box with the supplied screws. Gently pull the supply wires through the hole in the mounting bracket. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wire to the white fixture wire. Secure with the supplied wire nuts. Attach the green J-Box wire around green hexagonal head screw or connect it to the green supply grounding wire of the fixture. Secure all wires with electrical tape (not supplied).
Tuck all wires carefully into the J-Box.

2

MOUNT THE FIXTURE TO THE MOUNTING BRACKET

Align the fixture to the mounting bracket and secure with the supplied screws. Place the glass plate onto the center screw and secure with the supplied washer and hex-nut. Gently bend the acrylic into the fixture body.

WARNING: DO NOT RESTORE ELECTRICITY AND USE THIS FIXTURE BEFORE THE GLASS SHADE IS INSTALLED

3

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS LIGHTING FIXTURE

CAUTION If the fixture is to be removed or replaced, please ensure that the electricity is switched off and that the fitting is cool before touching it.
