# Install the Fixture

- 1 Secure the mounting plate to the junction box.
- 2 Connect the fixture to a suitable ground in accordance with local electrical codes.
- 3 Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 4 Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 5 If using dimming, connect the purple and gray wires to a compatible dimmer. If not using dimming, make sure to cap the purple and gray wires.
- 6 Neatly place all the wires into the junction box, place the fixture onto the mounting studs, and secure it in place by screwing the cap nuts onto the studs.
- 7 Align the diffuser to the fixture, screw it in the fixture, and secure it in place with the diffuser screw.
