

DESCRIPTION

The SEAMLESS S700 is JESCO Lighting's premier LED linear fixture. Each S700 fixture is linkable end-to-end with no dark spots even at connections between fixtures or connectors. Inter-connectable lit L-type corners provide for seamless turns - clockwise, counter-clockwise, inside-facing and outside-facing - allowing the fixture to change directions either on a horizontal or a vertical plane. Lit X- and T-type connectors are also available for a wide range of design possibilities. A uniform light output allows for intricate and complex layouts free from any break in the flow of light. Constant current IC components ensure every LED receives same specific amperage rating. This method ensures consistent levels of light output and color, no voltage drop and optimal thermal managaement, from the beginning to the end of the run. Mounted with integral magnets at the back of every fixture or with the snap-in mounting brackets for non-metallic surfaces (included). The fixture can also be mounted onto non-metallic surfaces with optional metal tabs (sold separately).

LUMEN DATA

SPECIFICATIONS

Voltage	24V DC
CRI	90+
Ambient Operating Temperature*	-4°F to 113°F
Beam Angle	120°
Lamp Life	50,000 hours
Maximum Run	16.4 ft**
Material	Aluminum body with flat opal lens
Dimensions	7/16"W x 1/2"H
Environment	UL Listed for Damp Locations (Indoor only)***
Certifications	
Warranty	5 Years – see published warranty terms for detailed information.

- Exceeding the ambient operating temperature values may damage the LEDs by reducing the lifespan, lumen output, and adversely impact color consistency. It is recommended adequate airflow and heatsinking be taken into consideration in the installation and application of this product. Improper thermal management may lead to premature product failure and void the warranty.
- ** Runs may be seamlessly extended with use of S700-EXTBSF ***Must use end caps

FEATURES

- · Seamless connections between fixtures
- No hot spots, even at connections between fixtures or connectors
- · Long runs may be interconnected seamlessly with inline Lit Extender with bottom or side feed
- · Lit inside and outside connectors in L, X and T patterns allow for lighting designs in three dimensional planes
- · IC chips assure near zero light output lost from the beginning to the end of runs
- Ultra-bright 3-step MacAdam LEDs offer tight color output with a CRI >90
- Intergral magnets for easy mounting
- Optional snap-in 0° or 45° mounting clips
